

TED ALIAGA KOLEJİ

PROJECT NAME: Culture Shock

APPLICATION DATE: December 2020 – May 2021

ABOUT THE PROJECT: The project aims to share and teach the values of the societies and cultures. The students will be required to represent their cultures by presenting important cultural aspects of their own. The students will do research about cinema, music, food and history of their own and by doing this, they will be able to learn from the other nation's culture and teach them their own cultural values.

Project Content:

In certain periods of time, students will be required to do different researches and present them in each online meeting. In every determined session they will either prepare a presentation or prepare video contents and share them. There will be five stages of the project. Music, History, Art, Languages & Literature, and Cuisine.

TARGETS:

The project will be applied between Poland and Turkey. During the process, students will determine the way they present their products. All of these products combined, both groups from the two countries will be able to tell a lot of new information about the culture of the other nation. In the end the students will come one step closer to the ultimate goal for being a global citizen and better emphatic people who have understanding about the differences among people.
