TED ALİAĞA KOLEJİ

ACTIVITY NAME: eTwinning Development Workshop

APPLICATION DATE: 12.12.2019- 30.04.2020

ABOUT THE PROJECT:
This Project is the result of the "My Learning Bag" activity within the Humanly, Very Humanly Project (I AM HUMAN Pandemic Project).

The aim of our project is to introduce the process, convey information, practice opportunities to our teachers who are new to eTwinning or who have never received a quality label. At the end of the process (in January), new projects will be written by forming groups with teachers who will participate in the training among themselves and from outside according to criteria such as school level (student age), branch and area of interest. These projects will be followed under the guidance of the founders of the Humane, Very Humane Project and it will be tried to be realized at a level that can apply for the National and European Quality Label.

AIMS: 1- Increasing and expanding the use of the eTwinning platform by teachers and students.
2- Supporting the professional development of teachers.
3- Improving the flow of information and working skills in cooperation and cooperation.
4- Besides individual success, tasting group success and understanding team spirit
5- Socializing by meeting teachers and students from different schools
6- Sharing your ideas in the common area
7- Improving communication skills
8- Learning to share.
9- Problem solving, decision making, developing the ability to take responsibility.
10- Teaching and learning by using Web 2.0 tools
11- Increasing the ability to help and create a joint product

WORKING PROCESS
The Working Process will be determined according to the learning level of the project participants and their active participation.

EXPECTED RESULTS
If our project can achieve its goals, we think it will provide the following valuable gains.
1- Introducing the eTwinning platform to teachers and students, to ensure that they have an idea about educational practices in different schools or European countries.

2- To enable students to use their high-level information skills, to make the information they learn permanent and meaningful, and to gain competencies and skills that can be associated with daily life by using information technologies effectively in the light of the information that teachers have acquired and shared with each other.

3- To raise individuals who have strong communication skills, who can contribute to the culture and society they cooperate with, who receive and produce information correctly, who can solve problems by making information functional, and who can think critically.
