

TED ALIAGA KOLEJİ

ACTIVITY NAME: We Breathe into the Present and the Future

APPLICATION DATE: October 2021– April 2022

ABOUT THE PROJECT:

Forest; They are dense tree communities where animals shelter and various plants. In the forest, large trees, shrubs, mushrooms, herbs, hundreds and thousands of plants are found together. Steppes, barren lands and deserts took the place of forests that were destroyed due to people's ignorance. We must plant trees and help grow new forests. The greatest damage to forests comes from people, people injure trees to make kindling and extract resin without obtaining permission from forest management. They destroy forests in order to open fields, establish settlements, and open grazing areas for animals. The protection of forests and the afforestation of our environment is an important problem both in our country and in our world. For this reason, we decided to do this project to create a love of trees and environmental awareness in our students.

AIMS:

1. Developing our students' sense of responsibility
2. Helping him/her to be willing to fulfill his/her task
3. Develop a sense of ownership by growing your own seed
4. To create awareness of tree love, protection of the environment and forests
5. Being able to use Web 2 tools

WORKING PROCESS:

Volunteer students will participate in the project, and it is planned to hold regular meetings with the Adobe connect program every month during the project. In the project, all partners have been shared equally, and the task sharing and timetable will be clearly stated in the project plan. Project evaluation will be made by applying pre-test and post-test to students and teachers. During the project process, dissemination activities will be carried out by using school websites, EBA and blog page.

The process will be determined later with the project partners.

EXPECTED RESULTS

1. They are willing to protect forests
2. They gain a love of trees
3. Environmental awareness is formed
4. A sense of responsibility develops
5. They learn to use Web 2 tools

PARTNERS OF THE PROJECT: Turkey

Age Range: 6-9 years
